

## Meet Our Investigators!

**Dr. David M. Nguyen**  
**Principal Investigator | Oncology**

Dr. Nguyen has been a key contributor to Lumi Research since November 2024, leveraging his oncology expertise and commitment to equitable trial access. An Oncology Medical Student Director at Tufts Medicine and Stanford Medicine alumnus, he holds multi-state board certifications, including Texas.

**Dr. Zhiyong Li**  
**Sub-Investigator | Oncology**

Dr. Zhiyong Li is a board-certified hematologist and oncologist with over 40 years of experience and has led his private practice, Dallas Cancer Specialists, since 2002. He specializes in lung cancers, including SCLC and multiple NSCLC subtypes, and trained at MD Anderson, Long Island Jewish Medical Center, and Hubei medical institutions.

## New Partnership!

Lumi is launching a new partnership with **Azul Bio Research**. They are a research company based in Sugarland Texas, with **Dr. Syed Hussain** and **Dr. Aman Jafar**. We look forward to working with them to to expand research into the community!

## New Year, New LUMI

Lumi is proud to announce the promotion of two administrators. **Anna Nguyen** is now the Business Director, and **Romeo Parada** is now the Clinical Research Manager! Congratulations and best of luck!

**Anna Kim Nguyen** is a Business Development Director in clinical research with 20+ years of experience across healthcare, nursing leadership, and financial services. At Lumi Research, she leads sponsor and CRO partnerships, expands community-based research sites, and drives clinical trial acquisition through data-informed strategy and strong cross-functional collaboration. With a background as a Registered Nurse and Business Owner, Anna brings a unique site-level perspective to business development, combining operational insight with relationship-driven growth.

**Romeo Parada**, originally from Central America, has lived in Houston, Texas for many years. Fluent in both Spanish and English, he brings more than 25 years of experience in the medical field, including 15 years dedicated to clinical research. During his career, he has participated in over 300 pharmaceutical-sponsored clinical trials across Phases I through IV. His experience spans hospital and research settings and includes work across numerous specialties, such as stem cell research, infectious disease, cardiology, nephrology, ophthalmology, uro-oncology, rheumatology, and endocrinology.
